Imagine an exceptional floor finish that will never peel and is very easy to maintain and keep clean, innovative enough to transform plain concrete floors into beautiful surfaces, durable enough to withstand the test of time, and versatile enough to express any style.

*Imagine no longer...*

# Imagine the Possibilities...

Heritage Bomanite's Custom Concrete Polishing System, paired with our superior color and craftsmanship capabilities, delivers the industry's most distinctive and best concrete floor finish.

Heritage Bomanite's Custom Concrete Polishing System offers exceptional resistance to slipping, abrasion, and impact. Superior to limited-life coatings, this finish does not require replacement, recoating or waxing. Surface care is user-friendly as simple cleaning will maintain its luster.

*Fresno Institute of Technology*

Polished concrete is a superior finish for garage floors as it will never peel and is very easy to maintain and keep clean. Once finished it will resist water and oil, in addition to being dust-proof. Our concrete polishing system is outstanding for restoring old concrete and making it look better than new, creating beautiful, attractive floors that are extremely durable and resistant to wearing.

Reminiscent of the timeless look of terrazzo, Heritage Bomanite's Custom Concrete Polishing System utilizes a unique, topically applied coloration system to create one-of-a-kind floors in a wide range of colors.

Heritage Bomanite's Custom Concrete Polishing System is highly reflective, providing an important benefit for retail facilities, office buildings, hotels, restaurants, and other public facilities that want to project a bright, clean, professional image.

One application, permanent results. Lustrous color, protected by a tight, beautiful sheen.
